

INSTALLING THE ADMINISTRATOR TOOLS

Step #1: Inside the **EXTRAS** folder locate the **tools** folder.

Step #2: Upload the **tools** folder to the same directory as the CAMCOM chat script.

Step #3: Open **chatmonitor.php** and **viewhistory.php** inside the **tools** folder in your browser.

chatmonitor.php

Shows the previous 30 chat messages and the page updates automatically every 10 seconds.
Perfect for monitoring chat discussions while not being connected to the chat.

viewhistory.php

Shows the entire chat message history retrieving the data from the chatarchive.xml
